Subject: Privilégié et confidentiel: FIPPA AS-159

Bonjour Pamela,

We have now completed request AS-159. Please note that this request technically includes the audio file of the lecture given by Professor Rancourt on 18-OCT-2008. Since this audio file was given by myself to Michelle in the context of her work on the Professor R dossier, I would presume that the file would therefore be excluded from the FIPPA request. I have not included a copy of the CD in the pile of documents that we are now sending you since you presumably have access to it in Michelle's dossiers. Let me know if you would still like me to send you a copy. The transcript of this was communicated to Michelle and myself by Maureeen in a privileged and confidential email dated 10-JAN-2008.

André
